

WEB SEMINAR

Please join John Burton Advocates for Youth for a web seminar to learn about SB 568 which was introduced by Senators Anthony Portantino and Richard Roth to reduce homelessness among college students.

The bill proposes to address the mounting crisis of homelessness among college students by establishing housing resources within the Community College and CSU Chancellor's Offices and UC Office of the President and by requiring campuses that receive funding to implement measures to maximize the financial aid received by homeless students and their linkage to community-based housing resources.

The webinar will provide background information that explains the impetus for the legislation, outline specifically what the bill will do, and walk through the necessary steps required to turn the bill into law.

Tuesday, March 26

10:00 - 11:00 A.M.

SB 568: Reducing Homelessness Among California's College Students
